Notes:

1. The Olympic Team Ranking is based on the ranking points of the three (3) highest Olympic ranked athletes. The calculation method is based on the World Team Ranking principles, with the only difference that the simulation of the matches is based on the Olympic match system (BC vs YZ, A vs X, C vs Z, A vs Y, B vs X).
2. The Olympic Ranking will be used for ranking, as well as for seeding (July 2020), for the Tokyo 2020 Olympic Games.
3. The Olympic Ranking Lists are up to date with all eligible athletes, pairs and teams at the time and do not have a limit based on the maximum quota per event, until the full lists of qualified athletes, pairs and teams are confirmed.
4. Possible exceptions as might be considered and confirmed by the IOC, leading up to the qualification for the Olympic Games, will appear on the Olympic Rankings.
